INDEX TO VOLUME XXVI, 1932

A

Allen, Frank, The Universe, from Crystal Spheres to Relativity (Book Review), *L. G.*, 139.

Alter, Georg, Astronomische Paradoxa (Book Review), *C.A.C.*, 32.

Annuaire de l'Observatoire Royal de Belgique,1933(Book Review), *F.L.T.*, 325.

Annual General Meeting of the Society, 113.

Astronomer's Instruments, The(Radio Talk), *W. E. Harper*, 79.

Astronomical Union, The Fourth Meeting of the International, *C. A. Chant*, 377.

Astronomische Paradoxa, *Georg Alter* (Book Review), *C.A.C.*, 32.

Astronomy in 1931, Some Items in the Progress of, *H. R. Kingston*, 97; Textbook of Practical, *J. J. Nassau* (Book Review), *R.K.Y.*, 139.

Atmosphere, Composition of the, *W. Burton*, 322.

Aurora—Arctic Will o' the Wisp, *Kathleen Rice*, 304; Audibility of the, *C.A.C.*, 36, 448; Charlotte Brontë's Description of the—Borealis, *C.V.P.*, 416.

B

Beals, C. S., Distant Universes, 145.

Book Reviews—see Review of Publications.

Brontë's Description of the Aurora Borealis, *C.V.P.*, 416.

Brown, S. C., Meetings of the Toronto Centre, 42, 94, 282.

Brydon, H. Boyd, Visit of Eclipse Party to Victoria, 360; Meetings of the Victoria Centre, 239, 287, 331, 372, 420.

Burland, Miriam S., Meetings of the Ottawa Centre, 95, 189, 332, 370.

Burton, W., Composition of the Atmosphere, 322.

C

Calcul des Différences Finies et ses Applications, *A. Henry* (Book Review), *R.K.Y.*, 231.

Campbell, G. E., Meetings of the Hamilton Centre, 143, 280, 376.

Cannon, Miss — and the Draper Memorial, 217.

Chadwick, K. M., The Earth: its Form and Size, 315.

Chant, C. A., Eclipse of Aug. 31, 1932; Revised Calculations, 247; The Earth as a Planet (Radio Talk), 257; The David Dunlap Observatory, 289; The Depths of Space (Radio Talk), 296; The Sun as a Star (Radio Talk), 300; The Fourth Meeting of the International Astronomical Union, 377; Notes and Queries, 36, 92, 142, 180, 232, 277, 329, 366, 415, 447; Review of Publications, 32, 140, 364, 412.

Chemical Composition of the Earth's Crust, *T. J. Greenway*, 317.

Chronology for the Times, *C.A.C.*, 232.

Clouds, Mother of Pearl, *Andrew Thomson*, 437.

Coexistence of Interstellar and Stellar Calcium in Class B Stars, *J. A. Pearce*, 347.

Collins, J. R., R.A.S.C. Expedition to Observe the Solar Eclipse of Aug. 31, 425.

Composition of the Atmosphere, *W. Burton*, 322.

Copernicus, Nationality of, *C.A.C.*, 39.

D

David Dunlap Observatory, The, *C. A. Chant*, 277, 289, 368.

Definition, *G. H. Woodhouse*, 175.

Depths of Space, The (Radio Talk), *C. A. Chant*, 296.

De Lury, R. E., News and Comments, 91, 141, 276, 413.

de Sitter's lectures at Toronto, *C. A. C.*, 40; Kosmos (Book Review), *C.A.C.*, 364.

Dinner to British Eclipse Party by Victoria Centre, 360; — to British Meteorological Party by Edmonton Centre, 375.

Douglas, A. Vibert, The 1932 Total Solar Eclipse, 211; What We Know about Stars (Radio Talk), 226; Meteors (Radio Talk), 401; Meetings of the Montreal Centre, 192, 237.

Draper Memorial, Miss Cannon and the, 217.

E

Earth as a Planet, The (Radio Talk), *C. A. Chant*, 257.

Earth, The: 1. Its Origin, *W. E. Harper*, 313; 2. Its Form and Size, *K. M. Chadwick*, 315; 3. Its Surface Features, *C. Hartley*, 316; 4. Chemical Composition of the Earth's Crust, *T. J. Greenway*, 317; 5. Composition of the Atmosphere, *W. Burton*, 322; 6. The Motions of the Earth, *W. F. Holdridge*, 323.

Earth, How the — was Formed, *R. K. Young*, 442.

Earthquakes of October, 1931, in the Solomon Islands, The, *S. Gold*, 291.

Eclipse, The (Poem), *Alex. H. Sutherland*, 400; —, The 1932 Total Solar, *A. V. Douglas*, 211; — of 1932, The Total Solar, *G. H. Hall*, 337; — of Aug. 31, The Solar, note, *C. A. C.*, 233, 366; — of Aug. 31, 1932; Revised Calculations, *C. A. Chant*, 247; — of Aug. 31, 1932: The Total Solar, Suggestions to Amateur Observers, *R. K. Young*, 251; — of the Sun, August 31, 1932, *James Weir*, 247; — of the Sun, Aug. 31, 1932, at Magog, Que.; a Report of Some Observations Made in Connection with the Total, *C. B. Hutchings*, 387; —"Observations" at Louiseville, *C.A.C.*, 417; at Maskinongé, *W. J. Helm*, 422; at Louiseville, *H. W. Barker*, 422, 430; near St. Simon, *F. K. Dalton*, 423; at Regina, *H. S. McClung*, 424; — R.A.S.C. Expedition to Observe, *J. R. Collins*, 425; *R. A. Gray*, 429; *S. Beatty*, 429; *J. Whitehouse*, 429; *H. R. Kingston*, 430; *F. H. Coates*, 431; *W. S. Mallory*, 433; *A. F. Miller*, 435; *S. L. O'Byrne*, 436.

Eclipse Chart, Sunshine data, *A. J. Connor*, 78.

Eclipses, Future — in the United States and Canada, *C. A. C.*, 416; — of the Sun (Radio Talks), *W. E. Harper*, 354, 356; — of the Sun, *S. A. Mitchell* (Book Review), *C. A. C.*, 365.

Eclipsing Variable TX Ursae Majoris, The Spectroscopic Elements of the, *J. A. Pearce*, 382.

Eddington, A. S., The Expansion of the Universe, 26.

Einsteinian Bending of Light Rays, The, *C. A. C.*, 278.

Engineer's Outlook, An, *Sir Alfred Ewing*, 395.

Etoiles dans leurs Courses, Les, *Sir James Jeans* (Book Review), *C.A.C.*, 140.

Eve, A. S., The Universe as a Whole (Radio Talk), 221.

Ewing, Sir Alfred, An Engineer's Outlook, 395.
Expansion of the Universe, *A. S. E.*, 26.
Experiments with a Foucault Pendulum, *Stephen Stoot*, 241.

F

Fireball seen at Montreal, *C. A. C.*, 92; Bright — seen from Toronto, *C.A.C.*, 232.
Fisher, Frances M., Meetings of the Edmonton Centre, 373.
Foucault Pendulum, Experiments with a, *Stephen Stoot*, 241.

G

Gilchrist, L., Vancouver Centre of the R.A.S.C., 41; (Book Review), 139.
Gold S., The Projection of Circles on a Mercator Map, 161; The Earthquakes of October, 1931, in the Solomon Islands, 291.
Gray, R. A., The New Centre at Edmonton, 236.
Greenway, T. J., Chemical Composition of the Earth's Crust, 317.

H

Hale, G. E., Signals from the Stars (Book Review), *C. A. C.*, 32.
Hale, W. G., Speeding in the Sky, 406.
Hall, G. H., The Total Solar Eclipse of 1932, 337.
Harper, W. E., General Index to the JOURNAL, compiled by, 232; Wave Lengths in A Type Stars, 267; The Earth, its Origin, 313; Radio Talks over CFCT, Victoria, B.C.—XLVI., The Form and Dimensions of "The Starry Universe", 17; XLVII., Light Waves, 19; XLVIII., What Time is it? 22; XLIX., The Astronomer's Instruments, 79; L., The Summer Stars, 82; LI., Spinning Worlds, 85; LII., Rotating Universes, 88; LIII., Shadows, 349; LIV., Shadows of the Planets, 351; LV., Eclipses of the Sun, I 354; LVI., Eclipses of the Sun, II 356; News and Comments, 178, 326.
Hartley, Charles, The Earth, its Surface Features, 316.
Holdridge, W. F., The Motions of the Earth, 323.
Huffman, Bertram, The Falling Perseids (Poem), 359.
Hughes, P. H., Meetings of the Victoria Centre, 48.
Hutchings, C. B., A Report on Some Observations Made in Connection with the Total Eclipse of the Sun, August 31, 1932, at Magog, Que., 387.

I

Index to the JOURNAL, General, compiled by *W. E. Harper*, 232.
International Astronomical Union, The Fourth Meeting of the, *C. A. Chant*, 377.
International Polar Year, The, *Andrew Thomson*, 366.
Interstellar and Stellar Calcium in Binary Stars, *J. A. Pearce*, 347.

J

Japanese Astronomical Events, *C.A.C.*, 329.
Jeans, Sir James, Le Mystérieux Univers (Book Review), *C.A.C.*, 33; Les Etoiles dans leurs courses (Book Review), *C.A.C.*, 140.
Jupiter, Daylight Observations of, *Oscar Whittaker*, 142.

K

Kingston, H. R., Some Items in the Progress of Astronomy in 1931, 97.
Kosmos, by W. de Sitter (Book Review), *C. A. C.*, 364.

L

Lane, J. S., Learned Societies for the Unlearned, 127.

Learned Societies for the Unlearned, *J. S. Lane*, 127.

Lectures before the Society: EDMONTON CENTRE—Variable Stars, *K. E. McShane*, 373; The Moon, *H. Beach*, 374; Meteors, *E. H. Gowan*, 374; Eclipses, *K. Alexander*, 375. HAMILTON CENTRE—Diagrams, *T. H. Wingham*, 143; How to Determine the Approach and Recession of a Star by Means of a Spectroscope, *W. S. Mallory*, 143; Our Sun, *D. B. Marsh*, 144; The Motions of the Moon, *Wm. Findlay*, 280; Einstein's Theory of Relativity, *Wm. Findlay*, 280; The Total Eclipse of the Sun next August, *H. R. Kingston*, 280; The Solar Eclipse of 1925, *D. B. Marsh*, 376. LONDON CENTRE—Astronomical Facts of the Great Pyramid, *F. H. Coates*, 45; The Ice Age, *G. H. Reavely*, 46; To the South Seas with an Astronomer, *S. A. Mitchell*, 47; Newer Developments in the Calendar Reform, *E. H. Anundson*, 183; How to Measure the Distances of the Stars, *R. A. Gray*, 185; Relativity and the Astronomer, *R. C. Dearle*, 419. MONTREAL CENTRE—Stellar Spectroscopy, *H. H. Plaskett*, 192; Theories of Cosmology, Ancient and Modern, *A. V. Douglas*, 238; The Nature of the Universe and the Expasnion of Space, *W. de Sitter*, 238. OTTAWA CENTRE—Astronomical Periods in Climate and Life, *R. E. De Lury*, 95; Art of Pathfinding, *R. G. Madill*, 189; The Nebulae, *A. H. S. Gillson*, 190; The Theory of Errors, *R. M. Stewart*, 332; Up-to-date Puzzles (Theories in Physical Science), *R. W. Boyle*, 333; Electron Emission in Radio Tubes, *J. P. Henderson*, 334; The Theory and Operation of the Eötvös Torsion Balance, *A. H. Miller*, 336; Decoding Seismograms, *W. W. Doxsee*, 370; The Total Solar Eclipse of August 31, *R. K. Young* and *R. E. De Lury*, 371. TORONTO CENTRE—Pluto, the Ninth Planet, *C. A. Chant*, 42; Some Little Known Cosmic Theories of Newton, *J. R. Collins*, 43; How the Distances of the Stars are Determined by Cepheid Variables, *R. A. Gray*, 43; Toronto's Great Engineering Feat, the New Waterworks Tunnel, *Wm. Gore*, 44; The Tides, *R. K. Young*, *E. J. Kennedy*, and *S. C. Brown*, 94; Double Stars, *R. A. Gray*, 95; New and Old Methods of Determining the Earth's Magnetic Field, *W. E. W. Jackson*, 186; Newton and Laplace, *J. Chapelon*, 187; Measuring Stellar Diameters, *J. H. Horning*, 188; The History and Development of our Calendar, *W. S. Armstrong*, 281; An Evening with Galileo, *D. J. Howell*, 282; Expeditions to Quebec to Observe the Total Eclipse of the Sun on August 31, 1932, *R. K. Young*, 283; Electrons, Protons, X-Rays and Cosmic Rays, *L. Gilchrist*, 419. VANCOUVER CENTRE—Cosmogonies, Ancient and Modern, *D. Buchanan*, 42; Telescope Making for Amateurs, *H. C. Forsyth*, *J. Teasdale*, *J. L. Bennett* and *Mr. Mackenzie*, 191; Nature of a Star, *H. G. Smith*, 191; Rotation of the Galaxy, *J. A. Pearce*, 192. VICTORIA CENTRE—Distant Universes, *C. S. Beals*, 48; Diffuse Gaseous Matter in Space, *J. S. Plaskett*, 239; Hydrographic Survey of the Coast of British Columbia, *H. D. Parizeau*, 240; Seismological Observations and Slow Earth Move-

ments, *F. N. Denison*, 331; Solar Eclipses, *W. E. Harper*, 420; A Summer Course of Astronomy—Series of Ten Lectures, 332, 372. WINNIPEG CENTRE—The Evolution of the Telescope, *N. J. Maclean*, 282; Limits of Life, *V. W. Jackson*, 284; Weather, *D. C. Archibald*, 418.

Leonid Meteors in 1931, The, *C.A.C.*, 38; in 1932, 449.

Light Waves (Radio Talk), *W. E. Harper*, 19.

M

Magee, G. R., Meetings of the London Centre, 45, 183, 419.

Magnetometer in Eastern Canada, Surveys with the Torsion Balance and, *A. H. Miller*, 1.

Masses of Seven Spectroscopic Binary Stars, The Minimum, *J. A. Pearce*, 345.

Mathematical Tables, Volume I (Book Review), *R.K.Y.*, 34.

McIntosh, R. A., Meteors, 193.

Meetings of the Society: Annual General Meeting, 113; —at *Edmonton*, 373; at *Hamilton*, 143, 280, 376; at *London*, 45, 183, 419, 454; at *Montreal*, 192, 237; at *Ottawa*, 95, 189, 332, 370; at *Toronto*, 42, 94, 186, 281, 418, 451; at *Vancouver*, 42, 191, 455; at *Victoria*, 48, 239, 331, 372, 420; at *Winnipeg*, 283, 418, 450.

Mercator Map, The Projection of Circles on a, *S. Gold*, 161.

Meteor in Manitoba, A Brilliant, *G. P. Morse*, 142.

Meteorite, The Paragould, *C.A.C.*, 36; A New Record in Meteorites, *C.A.C.*, 38; (see also under Fireball).

Meteors, *R. A. McIntosh*, 193; (Radio Talk), *A. Vibert Douglas*, 401; The Leonid — in 1931, *C.A.C.*, 38; in 1932, 449; The Falling Perseids (Poem), *B. Huffman*, 359.

Miller, A. H., Surveys with the Torsion Balance and the Magnetometer in Eastern Canada, 1.

Mirror, A Twelve-inch Steel, *H. C. B. Forsyth*, 277.

Mitchell, S. A., Eclipses of the Sun (Book Review), *C.A.C.*, 365.

Mother of Pearl Clouds, *Andrew Thomson*, 437.

Motions of the Earth, The, *W. F. Holdridge*, 323.

Mystérieux Univers, Le, *Sir James Jeans* (Book Review), *C.A.C.*, 33.

N

Nassau, J. J., Textbook of Practical Astronomy (Book Review), *R.K.Y.*, 139.

Nationality of Copernicus, *C.A.C.*, 39.

New Planetary Discoveries, *H. N. Russell*, 391.

News and Comments, 35, 91, 141, 178, 276, 326, 360, 413.

Norris, S. C., Meetings of the Winnipeg Centre, 143, 283, 418.

Notes and Queries, *C.A.C.*: Audibility of the Aurora, 36, 448; The Paragould Meteorite, 36; A New Record in Meteorites, 38; The Leonid Meteors in 1931, 38; The Nationality of Copernicus, 39; Professor de Sitter's Lectures, 40; Dr. Aitken Awarded the R.A.S. Gold Medal, 92; A Fireball seen at Montreal, 92; The Late C. J. Merfield, 93; Eclipse Chart, 142; Daylight Observations of Jupiter, 142, 447; A Brilliant Meteor in Manitoba, 142; Doings at Mount Wilson, 180; Ritchey's Photographic Telescope, 182; Infra-red Photographic Plates, 182; General Index to the JOURNAL, 232; Chronology for the Times, 232; Bright Fireball seen from Toronto, 232; The Solar Eclipse of August 31,

233; The David Dunlap Observatory, 277; A Twelve-inch Steel Mirror, 277; Periodicities in Solar Phenomena, 277; The Einsteinian Bending of Light Rays, 278; Japanese Astronomical Events, 329; Keeping up a Family Record, 329; Preparations for the Eclipse, 330; The Solar Eclipse of August 31, 366; The International Polar Year (A.T.), 366; The Laying of the Corner-stone, 368; Death of Max Wolf, 415; The Point of View, 415; The McDonald Observatory of the University of Texas, 415; Charlotte Brontë's Description of the Aurora Borealis, 416; Future Eclipses in the United States and Canada, 416; Eclipse "Observations" at Louiseville, 417; Curvature of Space, 447; A New Astronomical Publication, 447; Leonids, a Disappointment, 449; Scientific Apparatus for Sale, 449.

O

Observatory, The David Dunlop, *C. A. Chant*, 277, 289, 368; Harvard University's new Oak Ridge —, note, *C.A.C.*, 413; McMath-Hurlbert —, note, *R. E. DeL.*, 141; McDonald —, note, *R. E. De L.*, 413; The McDonald — of the University of Texas, *C.A.C.*, 415.

P

Pearce, J. A., Velocity Standards in O and B Type Spectra, 262; The Minimum Masses of Seven Spectroscopic Binary Stars, 345; The Spectroscopic Elements of the Eclipsing Variable TX Ursae Majoris, 382.

Periodicities in Solar Phenomena, *C.A.C.*, 277.

Perseids, The Falling (Poem), *B. Huffman*, 359.

Photographic Plates, Infra-red, *C.A.C.*, 182.

Physics by Various French Authors, Pamphlets on (Book Review), *C.A.C.*, 140.

Pickering, W. H., The Brighter Pleiades, 171.

Planetary Discoveries, New, *H. N. Russell*, 391.

Pleiades, The Brighter, *W. H. Pickering*, 171.

Poems: Time, *A. H. Sutherland*, 174; The Falling Perseids, *B. Huffman*, 359; The Eclipse, *A. H. Sutherland*, 400.

Projection of Circles on a Mercator Map, The, *S. Gold*, 161.

R

Radio Talks—Over CFCT, Victoria, B.C., by *W. E. Harper*: XLVI, The Form and Dimensions of "The Starry Universe", 17; XLVII, Light Waves, 19; XLVIII, What Time is it? 22; XLIX, The Astronomer's Instruments, 79; L, The Summer Stars, 82; LI, Spinning Worlds, 85; LII, Rotating Universes, 88; LIII, Shadows, 349; LIV, Shadows of the Planets, 351; LV, Eclipses of the Sun, I., 354; LVI, Eclipses of the Sun, II., 356. Over CFRB, Toronto, Ont., by *C. A. Chant*—The Earth as a Planet, 257; The Depths of Space, 296; The Sun as a Star, 300. Over CKAC, Montreal, P.Q., by *A. Vibert Douglas*, What Do We Know about Stars, 226; Meteors, 401; by *A. S. Eve*, The Universe as a Whole, 221. Over CFRB by *R. K. Young*, How the Earth was Formed, 442.

Review of Publications:

Annuaire de l'Observatoire Royal de Belgique, 1933, *F.L.T.*, 325; Astronomische Paradoxa, by G. Alter,

C.A.C., 32; Practical Astronomy, by J. J. Nassau, *R. K. Y.*, 139; Le Calcul des Différences Finies et ses Applications by A. Henry, *R. K. Y.*, 231; Eclipses of the Sun, by S. A. Mitchell, *C.A.C.*, 365; Les Etoiles dans leurs Courses, par Sir James Jeans, *C.A.C.*, 140; Kosmos, by W. de Sitter, *C. A. C.*, 364; Mathematical Tables, volume I of the B. A. A. S., *R.K.Y.*, 34; Le Mystérieux Univers, par Sir James Jeans, *C. A. C.*, 33; Four Booklets by Boll, de Broglie, Curie and Joliot, *C. A. C.*, 412; Pamphlets on Physics by various French authors, *C. A. C.*, 140; Signals from the Stars, by G. E. Hale, *C. A. C.*, 32; La Théorie de la Quantification dans la nouvelle Mécanique par L. de Broglie, *A. F. S.*, 410; The Universe, from Crystal Spheres to Relativity, by Frank Allen, *L. G.*, 139.

CONTENTS OF VOLUME XXVI, 1932

I. JANUARY

Surveys with the Torsion Balance and the Magnetometer in Eastern Canada (with Plates I, II) - - - - - - - - - - - *A. H. Miller* 1

Radio Talks over CFCT, Victoria, B.C.—XLVI., The Form and Dimensions of "The Starry Universe"; XLVII., Light Waves; XLVIII., What Time is it? - - - - - - - - - - - *W. E. Harper* 17

The Expansion of the Universe - - - - - - - - - - - *A. S. E.* 26

Review of Publications (*Signals from the Stars*, by George Ellery Hale; *Astronomische Paradoxa*, von Georg Alter; *Le Mystérieux Univers*, par Sir James Jeans; *C.A.C.: Mathematical Tables*, Volume I. Committee of British Association, R. K. Y.) - - - - - - - - - - 32

News and Comments - - - - - - - - - - - - - - - - 35

Notes and Queries (Audibility of the Aurora—The Paragould Meteorite—The Leonid Meteors in 1931—The Nationality of Copernicus—Professor de Sitter's Lectures) - - - - - - - - - *C. A. C.* 36

Vancouver Centre of the R.A.S.C. - - - - - - - - *L. Gilchrist* 41

Meetings of the Society—Vancouver, Toronto, London, Victoria - - 42

II. FEBRUARY

Standard Time and Time Zones in Canada (with two maps) - *C. C. Smith* 49

Eclipse of the Sun, August 31, 1932 - - - - - - - - - - 78

Radio Talks over CFCT, Victoria, B.C.—XLIX., The Astronomer's Instruments; L., The Summer Stars; LI., Spinning Worlds; LII., Rotating Universes - - - - - - - - - - - - *W. E. Harper* 79

News and Comments - - - - - - - - - - - - *R. E. DeL.* 91

Notes and Queries (Dr. Aitken Awarded the R.A.S. Gold Medal—A Fireball Seen at Montreal—The Late C. J. Merfield) - - - - - *C. A. C.* 92

Meetings of the Society—Toronto, Ottawa - - - - - - - - 94

III. MARCH

Some Items in the Progress of Astronomy in 1931: Address of the Retiring President - - - - - - - - - - - - *H. R. Kingston* 97

Annual General Meeting of the Society - - - - - - - - - - 113

Learned Societies for the Unlearned - - - - - - - *J. S. Lane* 127

Review of Publications (*Textbook of Practical Astronomy*, by J. J. Nassau, *R.K.Y.; The Universe, from Crystal Spheres to Relativity*, by Frank Allen, *L.G.;* Les Etoiles dans leurs Courses, par Sir J. Jeans, *C.A.C.:* Lectures at the Conservatoire national des Arts et Métiers, Paris, 1931 - - - - - - - - - - - - - - - *C. A. C.*) 139

News and Comments - - - - - - - - - - - *R. E. DeL.* 141
Notes and Queries (Eclipse Chart in our last Issue—Daylight Observations of Jupiter—A Brilliant Meteor in Manitoba) - - - - *C. A. C.* 142
Meetings of the Society—Winnipeg, Hamilton - - - - - - - 143

IV. APRIL

Distant Universes (with Plate III) - - - - - - - - *C. S. Beals* 145
The Projection of Circles on a Mercator Map - - - - - *S. Gold* 161
The Brighter Pleiades - - - - - - - - - - *W. H. Pickering* 171
Time (Poem) - - - - - - - - - - - - *A. H. Sutherland* 174
Definitions - - - - - - - - - - - - *G. H. Woodhouse* 175
News and Comments - - - - - - - - - - - - *W. E. H.* 178
Notes and Queries (Doings at Mount Wilson—Ritchey's Photographic Telescope—Infra-red Photographic Plates) - - - - *C. A. C.* 180
Meetings of the Society—London, Toronto, Ottawa, Vancouver, Montreal 183

V. MAY-JUNE

Meteors - - - - - - - - - - - - - - *R. A. McIntosh* 193
The 1932 Total Solar Eclipse - - - - - - - - - *A. V. Douglas* 211
Miss Cannon and the Draper Memorial - - - - - - - - - - 217
The Universe as a Whole (Radio Talk) - - - - - - - - *A. S. Eve* 221
What Do We Know About Stars? (Radio Talk) - - *A. V. Douglas* 226
Review of Publications (Le Calcul des Différences Finies et ses Applications by Alfred Henry, *R.K.Y.*) - - - - - - - - - - - - 231
Notes and Queries (General Index to the JOURNAL—Chronology for the Times—Bright Fireball seen in Toronto—The Solar Eclipse of August 31 - - - - - - - - - - - - - - - - - - *C. A. C.* 232
The New Centre at Edmonton - - - - - - - - - *R. A. Gray* 236
Meetings of the Society—Montreal, Victoria - - - - - - - - - 237

VI. JULY-AUGUST

Experiments with a Foucault Pendulum - - - - - - - *S. Stoot* 241
Eclipse of Aug. 31, 1932; Revised Calculations - - - - *C. A. Chant* 247
Eclipse of the Sun, August 31, 1932 - - - - - - - - *J. Weir* 247
The Total Solar Eclipse of August 31, 1932: Suggestions to Amateur Observers - - - - - - - - - - - - - - *R. K. Young* 251
The Earth as a Planet (Radio Talk) - - - - - - - - *C. A. Chant* 257
Velocity Standards in O and B Type Spectra - - - - *J. A. Pearce* 262
Wave Lengths in A Type Stars - - - - - - - - - *W. E. Harper* 267
News and Comments - - - - - - - - - - - *R. E. DeL.* 276
Notes and Queries (The David Dunlap Observatory—A Twelve-inch Steel Mirror—Periodicities in Solar Phenomena—The Einsteinian Bending of Light Rays)- - - - - - - - - - - - - - *C. A. C.* 277
Meetings of the Society—Hamilton, Toronto, Winnipeg, Victoria - - 280

VII. SEPTEMBER

The David Dunlap Observatory (with Plates IV, V) - - *C. A. Chant* 289
The Earthquakes of October, 1931, in the Solomon Islands - *S. Gold* 291
The Depths of Space (Radio Talk) - - - - - - - *C. A. Chant* 296
The Sun as a Star (Radio Talk) - - - - - - - *C. A. Chant* 300
The Aurora—Arctic Will o' the Wisp - - - - - - - *K. Rice* 304
The Earth—Symposium held at Victoria, B.C. - - *W. E. Harper, et al.* 313
Review of Publications (Annuaire de l'Observatoire Royal de Belgique, *F. L. T.*) - - - - - - - - - - - - - - - - - - 325
News and Comments - - - - - - - - - - - - - *W. E. H.* 326
Notes and Queries (Japanese Astronomical Events—Keeping up a Family Record—Preparations for the Eclipse) - - - - - - *C. A. C.* 329
Meetings of the Society—Victoria, Ottawa - - - - - - - - - 331

VIII. OCTOBER

The Total Solar Eclipse of 1932 (with Plate VI) - - - *G. H. Hall* 337
The Minimum Masses of Seven Spectroscopic Binary Stars - *J. A. Pearce* 345
Radio Talks over CFCT, Victoria, B.C.—LIII., Shadows; LIV., Shadows of the Planets; LV., Eclipses of the Sun, I; LVI., Eclipses of the Sun, II - - - - - - - - - - - - - - - *W. E. Harper* 349
The Falling Perseids (Poem) - - - - - - - - - *B. Huffman* 359
Visit of Eclipse Party to Victoria (with Plate VII) - - - *H. B. Brydon* 360
Review of Publications (*Kosmos*, by W. de Sitter, *C.A.C.; Eclipses of the Sun*, by S. A. Mitchell, *C.A.C.*) - - - - - - - - - - - 364
Notes and Queries (The Solar Eclipse of August 31—The International Polar Year—The Laying of the Cornerstone) - - - - *C. A. C.* 366
Meetings of the Society—Ottawa, Victoria, Edmonton, Hamilton - - 370

IX. NOVEMBER

The Fourth Meeting of the International Astronomical Union *C. A. Chant* 377
The Spectroscopic Elements of the Eclipsing Variable TX Ursae Majoris *J. A. Pearce* 382
A Report on Some Observations Made in Connection with the Total Eclipse of the Sun, August 31, 1932, at Magog, Que. - - *C. B. Hutchings* 387
New Planetary Discoveries - - - - - - - - *H. N. Russell* 391
An Engineer's Outlook - - - - - - - - - *Sir Alfred Ewing* 395
The Eclipse (Poem) - - - - - - - - - *Alex. H. Sutherland* 400
Meteors (Radio Talk) - - - - - - - - - *A. Vibert Douglas* 401
Speeding in the Sky - - - - - - - - - - *W. G. Hale* 406
Review of Publications (*La Théorie de la Quantification dans la nouvelle Mécanique* par Louis de Broglie, *A.F.S.;* Four booklets by Boll, de Broglie, Curie et Joliot, *C.A.C.*) - - - - - - - - - - - 410
News and Comments - - - - - - - - - - - *R. E. DeL.* 413

Notes and Queries (Death of Max Wolf—The Point of View—The McDonald Observatory of the University of Texas—Charlotte Brontë's Description of the Aurora—Future Eclipses in Canada and the United States—Eclipse "Observations" at Louisville) - - - - *C. A. C.* 415
Meetings of the Society—Winnipeg, Toronto, London, Victoria - - 418

X. DECEMBER

The Royal Astronomical Society of Canada's Expedition to Observe the Total Eclipse of the Sun, August 31, 1932 (with Plate VIII) *J. R. Collins* 425
Mother of Pearl Clouds (with Plates IX, X)- - - *Andrew Thomson* 437
How the Earth was Formed (Radio Talk)- - - - - *R. K. Young* 442
Notes and Queries (Curvature of Space—Venus and Jupiter in Daytime—A New Astronomical Publication—Audibility of the Aurora—The Leonids a Disappointment—Scientific Apparatus for Sale - *C. A. C.* 447
Meetings of the Society—Winnipeg, Toronto, London, Vancouver - - 450
Index to Volume XXVI - - - - - - - - - - - - - 457
